

**I am Ukrainian who loves and respects my Motherland where I grew up, got married and now I am raising my son. I have been quilting for 5 years.**

**And the quilting community supported me much when the full-scale invasion of Russia began. It helped me a lot and I was able to help others.**

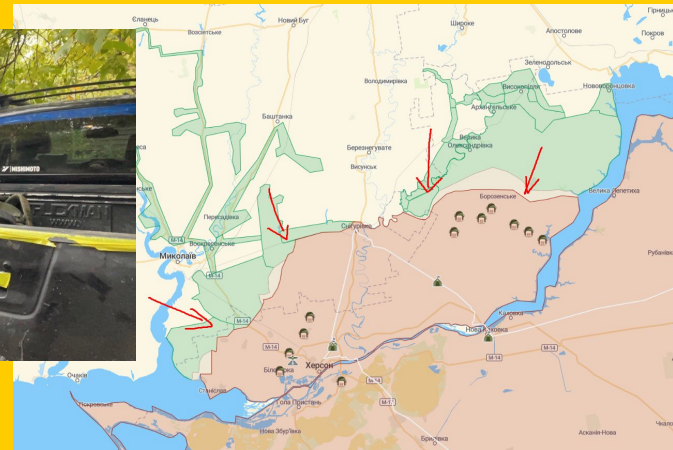

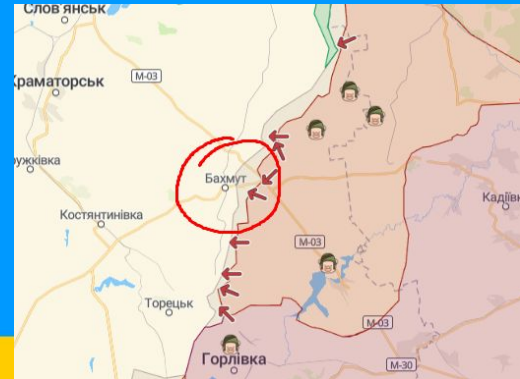

**The last 7 months have been very difficult. Explosions are heard every day. It is impossible to calculate the number of victims among civilians, military personnel, animals.**

**Now every person in my country does everything possible to bring victory closer. We are no exception and try to help our country every day. But without your support and help it is very difficult to do.**

**So Ukrainian warriors of light need some things to get through this winter. After all, winters in Ukraine are extremely cold. So we are asking for your help**

The war in Ukraine has been going on for nine years. But for the last seven months, Russia has not stopped shelling our territory for a single day. Thousands of people died and even more were injured. Still, there is a hope for Armed Forces and we need to do everything that depends on us to support them.

Don't forget about Ukraine Today it fights not only for its freedom and independence, but stands as a shield in front of the whole civilised world. We pay a very high price for democratic values

We are so proud to be Ukrainian. Each day we are one day closer to the victory!

Glory to Ukraine!

Glory to heroes!
